

NHPN Appoints Michael Forese President and Chief Operating Officer

2010-04-05 19:31:05 -

National Healthcare Payers Network, LLC (NHPN), a healthcare revenue cycle consulting company, announces the appointment of Michael Forese to the position of President and Chief Operating Officer.

"We are looking forward to Mike joining our management team and leading the company. His track record and extensive healthcare and management experience will enable the company to advance to the next level," stated Kurt Kozin, co-CEO. "Co-CEO Ian Michel and I are pleased to welcome Mike to the NHPN management team."

Mr. Forese brings over 30 years of experience in operations, finance and fund raising including extensive experience in the healthcare provider space. He most recently served as President of MP Consulting, a consulting company designed to assist start-up healthcare businesses in developing profitable operating models and securing financing. From 2004 to 2009 he served as Vice President, Finance and Administration at CardioNet, Inc., a wireless monitoring company with an initial focus on cardiac monitoring, where he drove the company to profitability, secured financing for company growth and led the company to a successful IPO and Secondary offering in 2008. Prior to CardioNet, Mr. Forese held positions such as Chief Operating and Chief Financial Officer at CRT Pharmaceuticals, Inc. and as the founding Chief Financial Officer and Treasurer of Research Pharmaceutical Services, Inc., a high growth start-up contract research organization.

Mr. Forese said, "I am very excited to accept this appointment as President and Chief Operating Officer. After having the opportunity to work on a day-to-day basis with the NHPN management team as a consultant, I believe that the Company represents an exciting opportunity in the healthcare revenue cycle management space. The niche services that NHPN offers will position the company to be a key player in the space and to profitably grow our market share. I am thrilled to lead the Company during this pivotal period in its development."

About National Healthcare Payer Networks, LLC (NHPN)

NHPN is a healthcare revenue cycle management company supporting hospitals and health provider organizations which provides customer focused and cost effective solutions to the toughest problems in revenue cycle management. The company provides a suite of niche services and innovative consulting to the healthcare industry that allows providers to optimize revenue. NHPN has developed programs that change the current reactive process present in most healthcare organizations to a pro-active process allowing providers to increase revenue and reduce administrative cost.
